SOP 06

Tasks

Your single work queue. Open My Queue. Work top to bottom. Repeat.

WHO THIS IS FOR	LAST UPDATED
Virtual Assistant — this is your home screen.	May 2, 2026

TL;DR — In 30 Seconds

The big idea

Tasks is the VA's entire workload. n8n creates every task automatically based on what's happening in the system. You don't need to wonder what to work on — open My Queue and work top to bottom.

If it's not in Tasks, it's not a priority. Work the queue, don't invent work.

Your daily loop (5 steps)

1. Open Tasks → My Queue.
2. Open the top task.
3. Do the work.
4. Set Status = Done.
5. Move to the next task.

Your Daily Workflow

1. Open SmartSuite → Tasks app → My Queue view.
2. Queue is sorted by Priority (Urgent → High → Normal → Low), then Due Date.
3. Start at the top. Open the first task.
4. Read: task name, linked client, notes.
5. Do the work.
6. Update Status = Done when complete.
7. Move to the next task.

That's it. Top to bottom. Don't skip tasks without a reason.

The 15 Task Types

These are the categories of work you'll see in your queue. Each tells you what kind of work is needed.

Task type	What it means
Set Up Ad Account Access	Get access to the client's Meta Business Portfolio. Confirm ad account is visible. Send the access guide if the client hasn't granted access yet.
Set Up Lead Forms	Set up Facebook Lead Centre and connect it to the client's CRM/destination. Confirm leads flow correctly.
Request Videos	Send the client the video recording brief and follow up until videos are received. Brief is niche-specific (auto-selected).
Upload Creative	Move client raw videos from Raw Video → Ad Creative folder in Google Drive once edited and ready.
Write Script	Edit / finalise an AI-generated script. Claude writes the draft; VA reviews and edits for the client's voice.
Admin	General admin task. Always check Notes for context.
Build Campaign (CSV Import)	Build campaigns using CSV import — primary method for duplicating campaigns at scale. Follow SOP 05.
Build Campaign (Manual)	Build a single campaign manually in Ads Manager + SmartSuite. Follow SOP 05.
QA Campaign	Run through the 9-point QA checklist before publishing. SOP 05.
Launch Campaign	Publish the approved campaign in Ads Manager. Update SmartSuite Status = Live. Set Launch Date.
Campaign Review	Review a campaign flagged for performance check. See SOP 07.
Cut / Pause Campaign	Pause or kill an underperforming campaign as flagged by the Intelligence Agent. Update Status to Paused or Cut.
Create Retargeting Audiences	Create custom audiences in Ads Manager. Campaign Intelligence Agent posts the exact specs in Notes — follow them exactly.
Update SmartSuite Records	Update records in SmartSuite as instructed. Check Notes for which app / record / fields.
Escalation Follow-Up	A blocker or issue has been escalated. Read Notes carefully and follow

Task type	What it means
	up.

How to Work a Task

8. Open My Queue.
9. Click the top task to open it.
10. Read everything:
    - **Task** — what you're doing.
    - **Client** — click through to see their details.
    - **Campaign** — if applicable, which campaign this relates to.
    - **Type** — confirms the kind of work.
    - **Priority** — Urgent means now.
    - **Due Date** — when it's due.
    - **Notes** — specific instructions or context. Always read.
11. Do the work (Ads Manager, Campaigns app, wherever applies).
12. When done: change Status → Done.
13. If you can't complete it: Status → Blocked + fill in Blocker Notes.
14. Move to the next task in the queue.

Priority Levels

Priority	What it means	Response time
Urgent	Do this before anything else. Time-sensitive or blocking the whole client.	Within 1–2 hours
High	Important. Do today.	Same day
Normal	Standard work. Do within 24–48 hours.	1–2 days
Low	Nice-to-do. Work it when the queue is clear.	3–5 days

Task Status

Status	What it means
To Do	Task is in your queue, ready to work.
In Progress	You've started this task.
Blocked	You can't complete this due to an external blocker.
Done	Task is complete.

Status	What it means

Don't leave In Progress

Don't leave tasks as In Progress for more than 24 hours without an update. If you're still working on something, add a note + message Andrew on Slack.

If You're Blocked

A task is Blocked when you cannot complete it due to something outside your control.

15. Change Status → Blocked.
16. Fill in Blocker Notes — be specific so Andrew can unblock.
17. Post a /update Tasks message in #team-<client> with Status: Blocked. Don't just quietly mark it blocked and move on.

Common blockers:

- Client hasn't given access yet.
- Client hasn't sent videos yet.
- A field in the Campaign record is missing (e.g., no Asset Link).
- Ad account has a policy issue.

Once the blocker is resolved, n8n or Andrew will unblock the task and it returns to your queue.

Key Fields Explained

Field	What it's for
Task	The name of the task. What to do.
Client	Which client this task is for. Click through to see details.
Campaign	Which campaign record this relates to (if applicable).
Type	The category of task. See the 15 types above.
Status	To Do / In Progress / Blocked / Done.
Priority	Urgent / High / Normal / Low. Work in this order.
Assigned To	Who owns this task. Only work tasks assigned to you.
Due Date	The deadline. Never ignore.
Blocker Notes	Only fill if Status = Blocked. Be specific.
Notes	Context, instructions, links. Always read.

Views

View	When to use it
My Queue	YOUR HOME SCREEN. Tasks assigned to you, sorted by priority then due

View	When to use it
	date.
Blocked	All tasks currently blocked. Check daily — you may be waiting on something that's been resolved.
Done This Week	All tasks completed this week. Reference and reporting.

What NOT to Do

- ✗ Don't create tasks manually. n8n creates tasks. If you think a task is missing, tell Andrew.
- ✗ Don't mark a task Done if you haven't actually completed the work. Be honest.
- ✗ Don't ignore blocked tasks. Flag them in Slack and keep checking back.
- ✗ Don't work on tasks assigned to someone else without being asked.
- ✗ Don't skip Urgent tasks to work on easier Normal tasks. Work priority order.
- ✗ Don't delete tasks. Even if a task seems wrong, mark it Done and flag to Andrew.

Troubleshooting — If Something Looks Wrong

Problem	What to do
My Queue is empty but I know there's work to do	Check the Onboarding app — there may be steps awaiting completion. Tell Andrew.
A task is assigned to me but I don't know what it means	Read Notes and the linked Campaign / Client record. Still unclear? Ask Andrew.
A task was created for the wrong client	Flag to Andrew. Don't move it yourself.
I completed work but n8n didn't create the next task	Tell Andrew — automation may have failed.
I see tasks from other clients in My Queue	Check the Assigned To filter on the view. Should only show your tasks.

Cheat Sheet

> **The 4-step rule**
>
> 1. Top of the queue. 2. Read everything. 3. Do the work. 4. Mark Done.
>
> Repeat. The queue is your work plan — don't fight it, don't skip it, don't invent extra work.
